

URBANTIME

LIBERTY.080

Collection

URBANTIME USA PRICE BOOK 2026
US dollar list prices - Effective 2026
Issued 24 August 2026 - For review

Contents

FLAT BENCHES	03 - 06
BENCHES WITH BACKRESTS	07 - 10
CURVED BENCHES	11 - 14
LEGS & COMPONENTS	15 - 18
TABLES	19 - 22
LITTER BINS	23 - 26
DECORATIVE PLANTER	27 - 28

Article numbers in this book are the Urbantime factory article numbers as printed in the 2026 Listino Urbantime, so a US purchase order and a factory order carry the same code. Prices are US dollars, list, and include freight. Seating and table modules are priced without legs; legs are ordered separately from pages 15-18.

LIBERTY.080 Flat Benches

DESIGN R&D Department

DESCRIPTION

Liberty.080 begins with one idea: freedom of configuration. Interchangeable die-cast aluminum slats sit on a galvanized under-seat beam, so a two- or three-seat module can stand on its own or join a continuous line. Armrests can be positioned anywhere along the module, and the choice of leg decides how the piece reads in the landscape. Modular, recyclable and built for the open air.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Interchangeable die-cast aluminum slats with Sendzimir galvanized steel under-seat beams. Side legs and armrests in cold-galvanized sheet metal. All finished with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

2-Seat module 48.4" long · 3-Seat module 74.0" long · Seat height 17.9" · Depth 18.1" on vertical legs, 22.1" on trapezium legs · Armrest height 25.6"

NOTE

Seating modules are priced without legs. Specify vertical, trapezium or infinity legs separately from pages 15-18.

COLORS & FINISHES

1 Note: Custom RAL colors require additional testing & approval, extended lead times, minimums & additional costs. Contact Urbantime USA for details.
2 Note: Custom-color article numbers - shown in italics, ending 00 - are proposed and have not yet been issued by the factory. Confirm the code with Urbantime USA when ordering. Every other article number in this book is the Urbantime factory article number as printed in the 2026 Listino Urbantime.

Notes: Freight is included in the price listed. | Prices are US dollars, list. | * Product weight does not include packaging.

LIBERTY.080

Flat Benches / Configuration

MODULE SIZES

2-Seat: 48.4" long. 3-Seat: 74.0" long. Both modules are 17.9" to the top of the seat. Overall depth is set by the leg: 18.1" with vertical legs, 22.1" with trapezium legs.

ARMRESTS

Armrests are built into the module rather than added afterwards, so a bench with armrests carries its own article number (UT80PL1301 and UT80PL2001). Armrest height is 25.6".

LEGS

Vertical legs (LBF110F) and trapezium legs (LBF120F) are supplied in pairs and carry a module standing on its own. The infinity leg (LBF150F) is supplied singly and is intended for the junction between two adjacent modules in a continuous run. Confirm leg quantities with Urbantime USA before ordering.

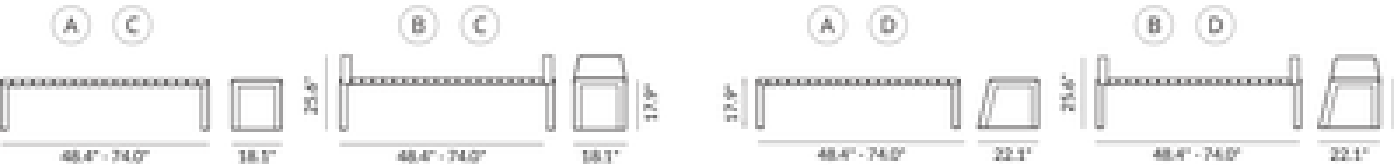

GROUND-FIXING

Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.

FINISH

All thirteen finishes are available on every module. Jet Black, Anthracite and Signal White are the base finishes; the remaining nine RAL colors and Corten Effect carry the standard upcharge shown in the price list. Anthracite is a micaceous finish.

TECHNICAL DRAWING

Flat bench, 2- and 3-seat modules. A without armrests, B with armrests; C vertical legs, D trapezium legs. Technical drawing reproduced from the 2026 Listino Urbantime. Dimensions are in inches; weights in pounds.

LIBERTY.080 Benches with Backrests

DESIGN R&D Department

DESCRIPTION

The same modular system, with backrest slats. Interchangeable die-cast aluminum slats form both seat and back, so a bench with a backrest sits in a run beside a flat module without a change of language. Armrests can be positioned anywhere along the module.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Interchangeable die-cast aluminum slats with Sendzimir galvanized steel under-seat beams. Side legs and armrests in cold-galvanized sheet metal. All finished with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

2-Seat module 48.4" long · 3-Seat module 74.0" long · Seat height 17.9" · Overall height 31.9" · Depth 18.6" on vertical legs, 22.1" on trapezium legs · Armrest height 25.6"

NOTE

Seating modules are priced without legs. Specify vertical, trapezium or infinity legs separately from pages 15-18.

COLORS & FINISHES

1 Note: Custom RAL colors require additional testing & approval, extended lead times, minimums & additional costs. Contact Urbantime USA for details.

LIBERTY.080

Benches with Backrests / Configuration

MODULE SIZES

2-Seat: 48.4" long. 3-Seat: 74.0" long. Seat height 17.9", overall height to the top of the backrest 31.9". Overall depth is 18.6" with vertical legs and 22.1" with trapezium legs.

ARMRESTS

As with the flat benches, armrests are integral to the module and carry their own article numbers (UT80PL1351 and UT80PL2051). Armrest height is 25.6".

MIXING MODULES

Flat and backrest modules share the same seat height, leg set and slat profile, so a single run can alternate between them. Confirm the junction detail and leg count with Urbantime USA.

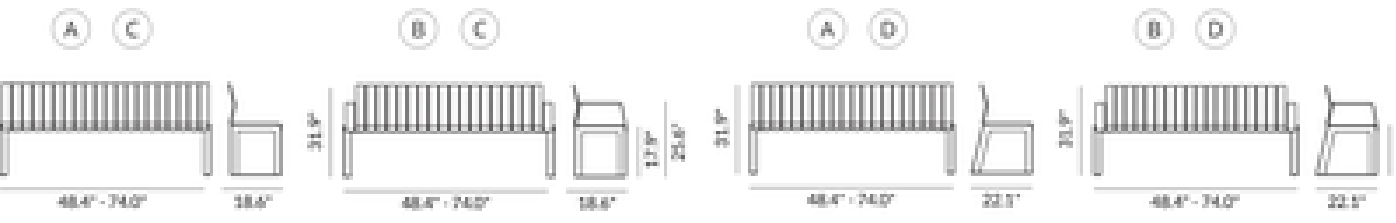

GROUND-FIXING

Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.

FINISH

All thirteen finishes are available on every module, on the same base and upcharge tiers shown throughout this book.

TECHNICAL DRAWING

Bench with backrest, 2- and 3-seat modules. A without armrests, B with armrests; C vertical legs, D trapezium legs. Technical drawing reproduced from the 2026 Listino Urbantime. Dimensions are in inches; weights in pounds.

LIBERTY.080 Curved Benches

DESIGN R&D Department

DESCRIPTION

The curved module turns the line. Built from the same slats and the same seat height as the straight modules, each curved bench occupies a 48.8" square and sweeps on a 27.6" inside radius, so straight and curved sections can be composed into arcs, serpentes and enclosed forms.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Interchangeable die-cast aluminum slats with Sendzimir galvanized steel under-seat beams. Side legs and armrests in cold-galvanized sheet metal. All finished with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

48.8" x 48.8" footprint · 27.6" inside radius · Seat height 17.9" · Seat depth 18.1" · Armrest height 25.6" · Backrest version overall height 31.9"

NOTE

Curved modules take a pair of end legs plus the curved bench middle leg (LBF130F). Legs are priced separately - see pages 15-18.

LIBERTY.080

Curved Benches / Configuration

GEOMETRY

Each curved module occupies a 48.8" x 48.8" square and sweeps on a 27.6" inside radius. Seat height and slat profile match the straight modules exactly, so curved and straight sections can be combined in one run.

LEGS

The curved module is drawn with a pair of vertical legs (LBFI10F) at the ends and a curved bench middle leg (LBFI30F) under the sweep. The middle leg is priced individually. Confirm the leg schedule for your layout with Urbantime USA.

ARMRESTS

Curved modules are available with or without armrests, each with its own article number. Armrest height is 25.6".

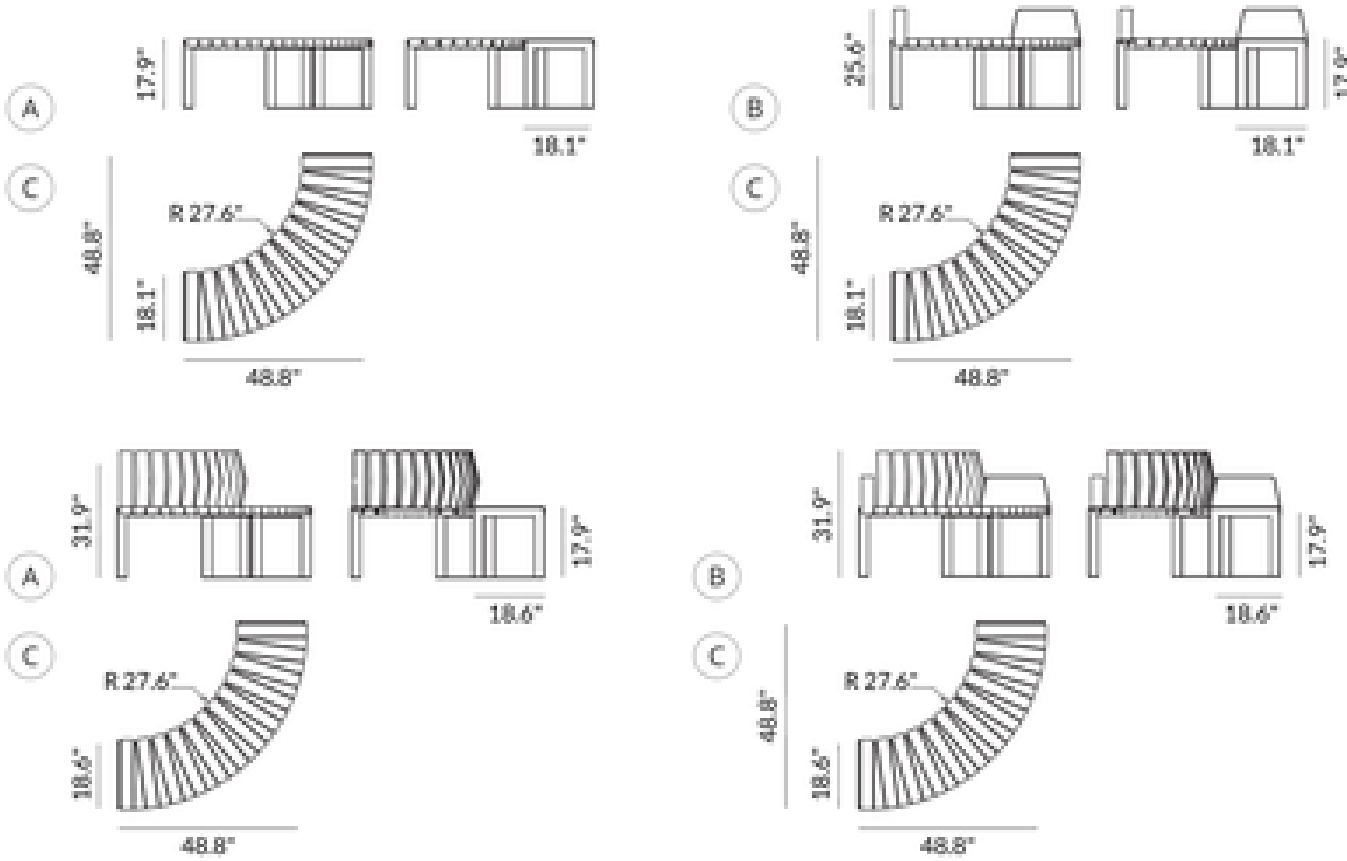

GROUND-FIXING

Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.

FINISH

All thirteen finishes are available on every curved module.

TECHNICAL DRAWING

Top, curved flat bench; below, curved bench with backrest. A without armrests, B with armrests; C vertical legs. R 70 is the inside radius. Technical drawing reproduced from the 2026 Listino Urbantime. Dimensions are in inches; weights in pounds.

LIBERTY.080 Legs & Components

DESIGN R&D Department

DESCRIPTION

The leg is what decides whether a Liberty.080 piece stands alone or belongs to a longer line. Three typologies serve the seating - vertical, trapezium and infinity - with a dedicated middle leg for curved modules and a table leg for the tables. All are finished to match the modules they carry.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Cold-galvanized sheet metal, finished with matte polyester powder coat colors to match the seating and table modules.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

Vertical legs: 18.1" deep (18.6" under a backrest module) · Trapezium legs: 22.1" deep · Table legs: 29.9" deep, 28.7" high · Seat height with any seating leg: 17.9"

NOTE

Vertical, trapezium and table legs are supplied and priced in pairs. The curved bench middle leg and the infinity leg are supplied and priced individually.

THE THREE LEG TYPOLOGIES

Trapezium leg • LBF120F

The leg designed for standalone seating. Dynamic and striking, it follows the same angle as the backrest, creating an iconic silhouette.

Square leg • LBF110F

A compact and essential leg, embodying a solid and balanced aesthetic. It is the ideal component for modular compositions, seamlessly linked by the infinity leg. The price list calls this the vertical leg.

Infinity leg • LBF150F

The core connecting element of the system: it allows an infinite number of linear or curved modules to be joined, creating seamless, continuous compositions.

1 Note: Custom RAL colors require additional testing & approval, extended lead times, minimums & additional costs. Contact Urbantime USA for details.
2 Note: Custom-color article numbers - shown in italics, ending 00 - are proposed and have not yet been issued by the factory. Confirm the code with Urbantime USA when ordering. Every other article number in this book is the Urbantime factory article number as printed in the 2026 Listino Urbantime.
Leg descriptions are Urbantime's own, from the Liberty.080 brochure. Confirm leg quantities for a given run with Urbantime USA before ordering.

LIBERTY.080 Tables

DESIGN R&D Department

DESCRIPTION

The Liberty.080 table shares the collection's slat language in extruded aluminum, on the same side-panel geometry as the seating. Two lengths match the two seating modules, so a table and its benches read as one composition.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Extruded aluminum slats with Sendzimir galvanized steel under-top beams. Side legs in cold-galvanized sheet metal. All finished with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

48.4" long or 74.0" long · Depth 29.9" · Height 28.7"

NOTE

To guarantee adequate stability, the table must be fixed to the ground or connected with a metal linking plate. Table legs (LBF140F) are priced separately - see page 17.

Table legs (LBF140F) are ordered separately - see page 17.

LIBERTY.080
Tables / Configuration

SIZES

Two standard lengths, 48.4" and 74.0", both 29.9" deep and 28.7" high. The two lengths match the two seating module lengths, so a table and its benches read as one composition. Urbantime describes them as a four-seater and a six-seater.

STABILITY

To guarantee adequate stability the table must be fixed to the ground or connected with a metal linking plate. This is a requirement, not a recommendation.

LEGS

The table takes its own leg (LBF140F), supplied and priced in pairs and ordered separately - see page 17. The seating legs do not fit the table.

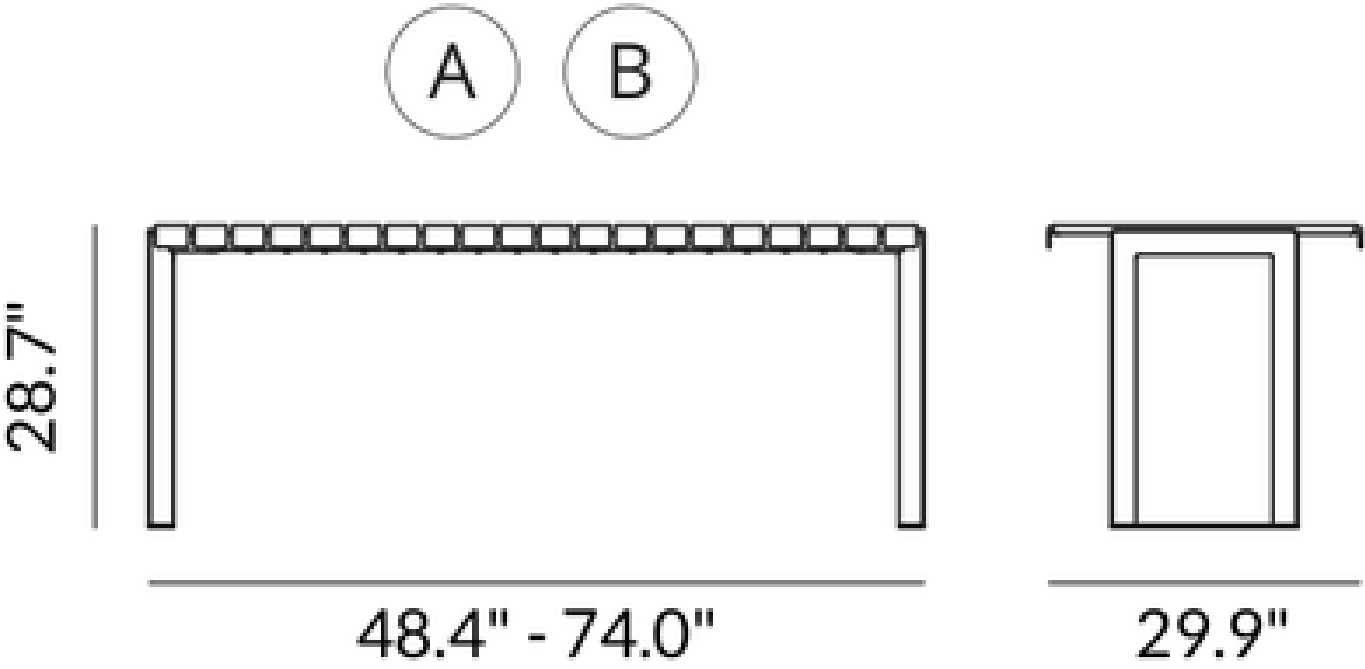

GROUND-FIXING

Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.

FINISH

All thirteen finishes are available on both lengths, on the same base and upcharge tiers used throughout this book.

TECHNICAL DRAWING

Table, A 48.4" and B 74.0" lengths. Technical drawing reproduced from the 2026 Listino Urbantime. Dimensions are in inches; weights in pounds.

LIBERTY.080 Litter Bins

DESIGN R&D Department

DESCRIPTION

In harmony with the collection's aesthetic, the Liberty.080 litter bin combines style and function. The front-opening door, secured by a lateral lock, makes servicing quick and easy, and the bin ships with a 17.2 gal internal liner.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube frame with die-cast aluminum top slats and extruded aluminum vertical slats. All finished with matte polyester powder coat colors. Supplied with a 17.2 gal internal liner.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

18.1" x 18.1" footprint • 39.4" high • 17.2 gal internal liner

NOTE

The litter bin with ashtray is priced on request. Contact Urbantime USA for a quotation.

Bin capacity is the volume of the supplied internal liner.

LIBERTY.080
Litter Bins / Configuration

SIZE & CAPACITY

18.1" x 18.1" on plan, 39.4" high. Supplied with a 17.2 gal internal liner, which is the capacity quoted in the price list.

SERVICING

The door opens at the front and is secured by a lateral lock, so the liner is drawn straight out rather than lifted over the rim. The bin ships fully assembled.

ASHTRAY VERSION

The litter bin with ashtray (UT80CE20) is the same shell with an ashtray in the top. The factory prices it on request; it reads CALL throughout this book.

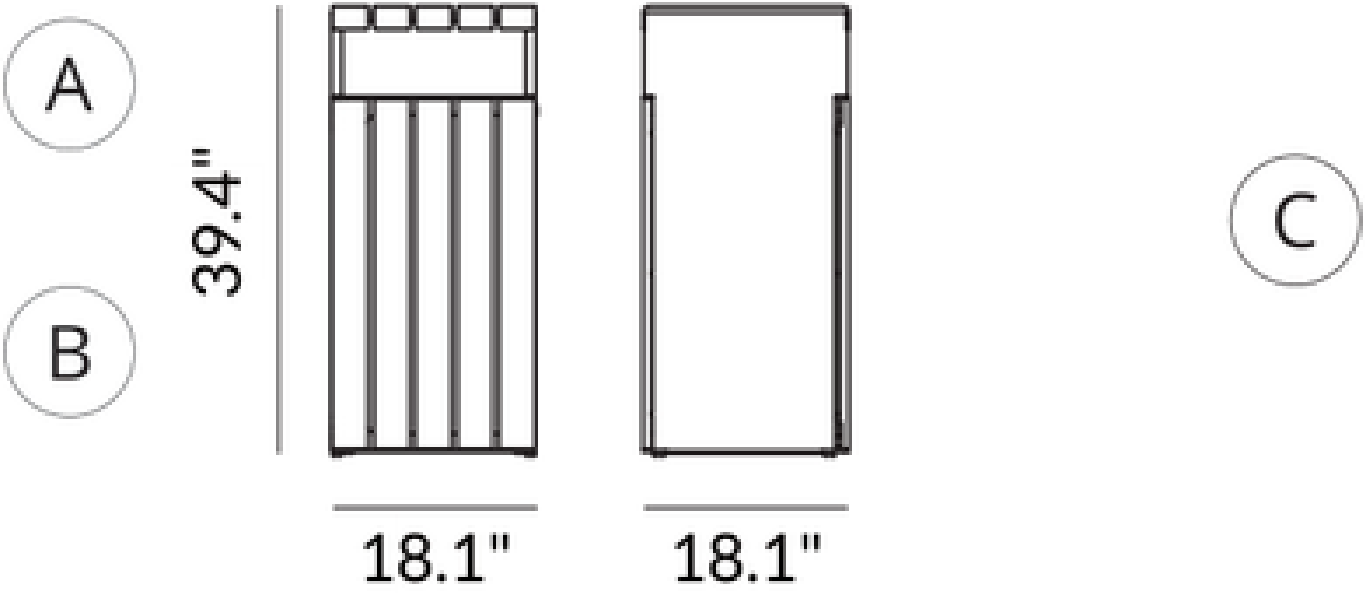

SHARED SHELL

The decorative planter uses the same shell and the same footprint - see page 27. A bin and a planter side by side line up exactly.

GROUND-FIXING

Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.

TECHNICAL DRAWING

Litter bin: A basic, B with ashtray. C is the decorative planter, which shares the same shell. Technical drawing reproduced from the 2026 Listino Urbantime. Dimensions are in inches; weights in pounds.

LIBERTY.080 Decorative Planter

DESIGN R&D Department

DESCRIPTION

The planter completes the space. Built to integrate with the rest of the collection, it shares the same vertical slat language and the same footprint as the litter bin, in extruded aluminum on a galvanized steel frame.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube frame with extruded aluminum vertical slats. All finished with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

DIMENSIONS

18.1" x 18.1" footprint • 39.4" high

NOTE
