Flat Benches

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Thirteen bent tubes, one continuous line: the .015 Flat Bench rests on the ground as lightly as a sketch, its galvanized steel frame carrying real weight while appearing to carry none at all. Linear enough to read as drawing, sturdy enough to serve a lifetime of public use, it's proof that simplicity, done precisely, is its own kind of sophistication.

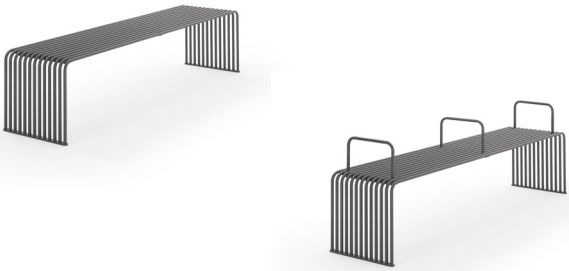

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts or connection with metal plates. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

Concave & Convex Flat Benches

DESIGN Basaglia + Rota Nodari

DESCRIPTION

The same 13-tube structure bent instead into a gentle curve, letting one bench after another compose into shapes a straight line never could. Endless configurations, each one stamped with the same delicate, unmistakable line; a signature that holds even when the form bends.

Flat Bench-to-Bench: Bracket Connections

DESIGN Basaglia + Rota Nodari

DESCRIPTION

A flat bench becomes a continuous run the moment steel plates join one unit to the next, the seam between them so precise it reads as a single unbroken line rather than a joint. What begins as one bench for one person becomes, length after length, seating built for however many the day brings.

ZEROQUINDICI.015

Benches with Backrests

DESIGN Basaglia + Rota Nodari

DESCRIPTION

A backrest nearly 79” wide, drawn from the same bent stainless or galvanized steel tube as the rest of the .015 family, its bold curve reading as sculpture until you sit in it. Comfort, here, isn’t an accessory to the form. It’s the whole argument for it.

Curved Benches with Backrests

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Curved inward or outward as the site requires, this member of the .015 family bends the same galvanized steel tube into a form built to gather people rather than simply hold them. Modular by nature, it adapts from one plaza to the next without ever losing its line.

Convex Half-Circle Configuration

ZEROQUINDICI.015

Bench-with-Backrest-to-Bench-with-Backrest:

Bracket Connections

DESIGN Basaglia + Rota Nodari

DESCRIPTION

A system of steel plates joins single seats, benches with backrests, and even a concave or convex run into one continuous seating line, each connection precise enough to disappear into the whole. Whatever the configuration, the backrest stays constant – a long line of support built to feel like one gesture, not an assembly of parts.

Benches-to-Rectangular-Table: Bracket Connections

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Cast in sendzimir galvanized steel and joined by metal bars, this table and its benches hold their form in any weather while asking nothing of the ground beneath them. Bolted down where drilling isn't an option, it proves that permanence doesn't always require penetrating the surface it stands on.

Cube Chairs, Tables & Stools

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Seat, side table or high stool depending on the moment, the .015 Cube is the most versatile piece in the collection, its bent-tube structure lightweight enough to move and strong enough to stay put. Cast in powder-coated, sendzimir galvanized steel, it holds its comfort through every season, at home as easily as it holds its place in public space.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube with matte polyester powder coat colors.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts or connection with metal plates. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

Chaise Lounge

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Bent from the same slender steel tube as the rest of the collection, the .015 Chaise Longue carries a sophistication that moves easily between a public plaza and a private terrace. Paired with an eco-leather cushion, it settles into home outdoor living as naturally as it holds its place in the city.

TECHNICAL DETAILS

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube with matte polyester powder coat colors. Fire retardant simil leather pillow.	Product ships fully assembled.	Ready-equipped for fastening to the ground with bolts or connection with metal plates. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

Stackable School Stools & Tables

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Stackable, ground-fixable and built to withstand the daily wear a school day demands, School .015 configures into a two-seat workstation without ever surrendering the line that defines the rest of the collection. It moves around & reconfiguraes as easily as the ideas it's meant to support, proof that resilience and refinement were never mutually exclusive.

Modular Chairs & Sofas

DESIGN Basaglia + Rota Nodari

DESCRIPTION

An armrest and an ergonomic seat, combined without limit: a single armchair for private relaxation, a two-seater for a first date, or a long undulating run along the seafront, all from the same modular vocabulary. Cast powder-coated, sendzimir galvanized steel, it lets one system of parts become as many kinds of comfort as the setting requires.

TECHNICAL DETAILS

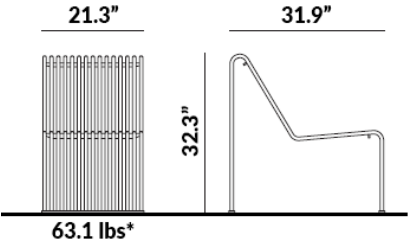

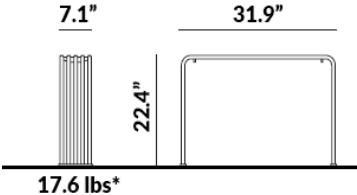

Material Composition	Assembly	Ground-Fixing	Warranty
Sendzimir galvanized steel tube with matte polyester powder coat colors.	Some assembly required (-RTA).	Ready-equipped for fastening to the ground with bolts or connection with metal plates. For anchoring to a hard surface, we recommend M8X90/30 stainless steel or galvanized anchors.	8 year.

Bike Racks

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Four ways to hold a bicycle in place, from a ground-set rack to a square-section stand doubling as a bollard, all built to attach directly to the rest of the .015 collection through the same steel plate connections. What starts as a single rack becomes, piece by piece, a considered composition of seating and storage rather than two separate problems solved separately.

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Single, double, or triple, the same bent steel tube that defines the .015 family here takes on a more practical role, its strong and durable structure built to make sorted collection as easy in a park as it is on a plaza. Available in three configurations, it scales its footprint without ever losing the line that makes the rest of the collection recognizable.

Big Litter Bins

DESIGN Basaglia + Rota Nodari

DESCRIPTION

Built from the same bent stainless or galvanized steel tube as the rest of the collection, a large-capacity bin holds a removable liner inside a frame open enough to read as sculpture rather than infrastructure, with a high-cover option that shields its contents from the weather. 17.2 gallons of practical capacity, carried by a form that never once looks the part.
